

MAY IS DALCROZE MONTH AT LMS!

It's time to revolutionize the way you experience music.

Whether you're an educator, a performer, or a music student of any age, Dalcroze can help you feel and understand music in a whole new way. Known as "music training through movement," Dalcroze uses the body to develop a strong musical foundation and natural feel for music.

Who can benefit from Dalcroze?

- ✓ **Teachers** learn an educational approach that delights young children. LMS has one of the largest Dalcroze teacher training programs in the country!
- ✓ **Adult musicians and music students** get a "musical tune-up" that re-invigorates their love for and understanding of music.
- ✓ **Performers** (musicians, dancers & actors) find new pathways to improvisation and composition.
- ✓ **Young music students** from 2.5 on up explore musical concepts through rhythm games, creative movement and improvisation. Dalcroze is an excellent complement to instrumental lessons!
- ✓ **Seniors** can renew their delight in music while improving their balance and reducing their risk of falling.
